QUALITY AND ENVIRONMENT

We are signatories of the «**Camping Qualité**» (i.e., **high-quality campsite**) charter, and so, take care to ensure the quality of your stay and surroundings.

Quality covers 5 criteria:

- **A warm welcome**, to contribute to making your stay pleasant and friendly.
- **Flawless cleanliness** everywhere on the campsite.
- **Accurate and honest information**. We are committed to providing you with full and detailed information on our campsite, services, activities, and prices.
- We endeavour to provide you with **a well-kept, private pitch** and guarantee a peaceful and quiet stay.
- We are committed to providing **attractive and well-kept surroundings**.

Our priorities include landscaping and energy saving.

We do our best to protect the environment. A few examples : The water for the sanitary facilities is heated using solar energy, the water for the swimming pool is heated by a heat pump, we use electric cars to move around the campsite, and every year we plant multiple local trees and bushes...

While on holiday at the campsite, it's important to keep up environmentally-friendly practices.

Let's protect the environment together:

- I avoid waste (water and electricity), don't play with water from taps or sanitary facilities. I take care not to leave the tap on when I brush my teeth or lather up when showering
- I recycle waste. Household waste must be disposed of neatly in the brown containers. A glass container (green), packaging and paper containers (yellow), and a battery container are located at the entrance to the campsite (14).
- Dog waste bags are available from reception.
- Quand je quitte le mobil-home j'éteins les lumières et le chauffage
- When I leave the mobile home, I turn off the lights and heating
- I remember to turn off the heating when I open the windows of the mobile home
- I don't litter the campsite with cigarette butts, chewing gum or waste (paper, plastic cups, drinks cans, etc.)
- I don't wash bikes and cars, tarpaulins, etc. with the hose
- I respect the environment.

RECIPE

Cyril Lignac's chestnut & chocolate cakes

With their subtle but divine chestnut flavour, these cakes by renowned chef Cyril Lignac make for a spectacular dessert!

INGREDIENTS :

SERVES 4

60g chestnut flour

55g milk chocolate

85g caster sugar

2 eggs

110g softened butter

1

Preheat the oven to 190°C or thermostat 6-7. Butter the individual silicone tins, place on an oven shelf and put to one side.

2

Cut the milk chocolate into pieces and melt it in a pan over a low heat in a bain-marie. In the meantime, beat the eggs with the caster sugar in a mixing bowl until the mixture whitens.

3

When the milk chocolate is nicely melted, add it to the mixture along with the softened butter. Mix well, then add in the chestnut flour. Stir well again with a wooden spoon until the mixture is smooth and lump-free.

4

Fill the individual tins with this mixture, up to 2/3, then place in the preheated oven and cook for 9 to 10 minutes.

5

When the chestnut & chocolate cakes are cooked, take them out of the oven and let them cool for a little while before turning them out onto dessert plates. Serve with a scoop of vanilla ice cream and tuck in immediately.

The Ardèche is France's leading producer of chestnuts (5,000 tonnes per year, i.e. half of the country's total production).
